 Enterprising Portuguese laborers at Waiakale lately built a sloop capable of carrying a goodly quantity of freight at that place. The little craft looks well enough but for the limited speed of canvas on the ribs. It is being utilized between Waiakale and Honolulu.

The Flag Restoration.

EDITOR BULLETIN:—It has been often expressed by numerous individuals upon the streets of Honolulu that when the American flag is once raised it never comes down. We believe that when that glorious flag is raised in defense of right and justice, there is not the least doubt that the stars and stripes would float to the breeze, backed by the whole force of the United States. I think there are some here who will take warning and long remember the lesson of the 1st of April as well as the 17th of January.

Needed a Petticoat.

EDITOR BULLETIN:—Henry Castle, in his sarcastic mention of the meeting of the Hawaiian Women's Patriotic League, in yesterday's Advertiser, forgets to note the reason why the lady who refused him entrance to the hall made the remark, "We can wear the pants." Mr. Castle finding that he could not force his presence where it was not wanted, said to the lady, "If I go home and put on a petticoat, I suppose I can get in." "Yes," was the reply, "and we will wear the pants." Hoka.

The lecture on Handel announced for Saturday the 8th inst., is postponed until Tuesday evening, April 11. A full program will be announced.

Farley, for Kauai.

The "mudslinger's" account of the mass meeting on Palace Square would have been all right if the faithful work of the reporter had been allowed to stand. However, the Punch-and-Judy man must be given the job of substituting a burlesque, otherwise he would have nothing to show for his twenty-four hours' dodging of real news.

Intending travelers for eastward points in the United States have their attention called to a card of the Canadian Pacific Railway in this issue. All who have traveled by that route are enthusiastic over the magnificent scenery and excellent arrangements for comfort all along the line. The fare is lower for those classes than by any other line. Those who have seen all that is to be seen by other transcontinental routes cannot do better than take a ticket by the Canadian next time.

All kinds of Commercial Printing promptly executed at low rates at the Bulletin Office.

FLAG RESTORED.

"Old Glory" Comes Down and "Hawaii Pono" Goes Up.

Quiet Ceremony Without Cheers or Music at the Government Building.

Commissioner Blount, sent to Honolulu by President Cleveland to investigate the situation, has given a practical development of part of his instructions, by causing a withdrawal of the United States Protectorate proclaimed and instituted by Minister Stevens on February 1st. The Stars and Stripes were hauled down from the Government Building, over the tower of which they had floated two months, at 11 o'clock this morning. At the same time the guard of United States marines was withdrawn from the building.

There was but little ceremony and no music. Lieutenant Draper, U. S. M. C., had charge of the arrangements. He sent a non-commissioned officer up to the summit of the tower to make the exchange of flags at the sound of the bugle.

At three minutes to 11 the regular Provisional Government guards, Capt. John Good commanding, marched into the yard, taking their station on the Waikiki side of the Kamehameha monument. They were followed by Company A, volunteers, Capt. Ziegler commanding, which took its stand on the Ewa side of the monument. Battery Co. E, Capt. W. C. Wilder, Jr., commanding, succeeded, taking its place in the rear. Col. J. H. Fisher and Major Geo. McLeod were in command of the troops, under Col. J. H. Soper, commander-in-chief.

At 11 o'clock precisely, by the tower clock, Lieut. Draper gave the order, the bugle sounded its musical blast, and the Stars and Stripes fluttered down out of sight. It took just a minute and a half to exchange flags on the halliards, when the Hawaiian flag rose again to its place on the Capitol. The forces presented arms in salute. Immediately afterward, at four minutes past 11, the United States marines from the U. S. S. Boston marched out of the grounds.

There was no band in attendance, and no cheering was heard beyond a faint effort outside of the yard. A native was asked why he and his countrymen did not cheer. He replied that it would not be polite to the United States to make any demonstration.

Among those who witnessed the ceremony were President Dole and other members of the Executive Council, as well as of the Advisory Council, Chief Justice Judd and other members of the Judiciary. Capt. Hooker of the U. S. S. Rush and his son, and representatives of the United States and local press. There was a large crowd of the general public, native Hawaiians preponderating.

Capt. Hooker remarked on the utter absence of any mob propensities from the conduct of the native Hawaiians. By the way, the natives swarmed about the gallant captain, on the mistaken information that he was Commissioner Blount.

When the United States marines withdrew, Co. A, marched into the building, followed by a detachment of Co. E with a galling gun. This piece of ordnance is left in the building in charge of Co. A. Natives and foreigners were permitted free entry into the building, but when they blocked up the entrance and corridor Col. Fisher had to ask those not having business to withdraw outside. For a half hour the proceedings demoralized the lively and always enervating business of pay-day. When all that was to be seen was over, the crowds quietly dispersed.

The marines marched down to Camp Boston where the company of blue jackets were quartered. Headed by the drum and life corps the battalion marched to Fort street, then by Queen street to the boat-landing, where they embarked in barges for the U. S. S. Boston.

The landing was crowded with people to witness the embarkation of Uncle Sam's boys.

COUNCIL MEETINGS.

Appropriation of Fifty Thousand Dollars for Expenses of Government.

At yesterday afternoon's sitting the joint Council passed the following Acts:

An Act confirming a contract licensing the taking of fertilizers from Layan Island, reserving a royalty of 50 cents per ton to be paid the Hawaiian Government.

An Act granting to the North Pacific Phosphate and Fertilizing Company the right to mine for sulphur-bearing products in the Hawaiian Islands for twenty years.

J. A. McCandless offered a resolution that "Lilikokalani be hereafter paid \$500 per month by the Provisional Government of the Hawaiian Islands, so long as she in good faith carries out such conditions and restrictions relating to political matters as might be prescribed by the Executive and Advisory Councils."

After a discussion on the question of discussing the resolution in secret or open session—Messrs. Dunning and Brown being in favor of the former, and McCandless and Emmelhuth of the latter—the motion was lost.

The Executive and Advisory Councils sat again this morning. Mr. C. Brown from the Judiciary Committee reported a bill to amend the law relating to internal taxes. It was ordered to be type-written.

In view of the withdrawal of the United States Protectorate the following disposition of the Government's forces was made:

Captain Ziegler's company will protect the Government Building. The other volunteer companies will be placed under arms, to attend at the Government Building while the American flag is being replaced by the Hawaiian.

On motion of Mr. Brown, seconded by Mr. Emmelhuth, the volunteers on duty shall be allowed the same pay as Co. E for like services.

Mr. Waterhouse for the military committee recommended the appropriation of \$250 for beds for volunteers in the Government Building. Adopted.

The Judiciary Committee was ordered to prepare a bill to appropriate \$50,000 for the expenses of the Provisional Government.

Mr. Emmelhuth called attention, producing a sample, to the rottenness of material in the uniform for the regular soldiers, saying they did not wish to see the same stuff used in the uniform for the volunteers.

Messrs. Emmelhuth, Morgan and Waterhouse were appointed as a committee to attend to the matter. It was decided to give Editor Sheldon of the Honolulu a hearing at 1:30 p. m. Monday.

The Councils then resolved into executive session.

Hood's Cures

Sharp Pains

Short Breath, Heart Trouble, Rheumatism.

"I have lived here in Oregon for the past twenty years, and most of the time have been a very great sufferer from inflammatory rheumatism. I have also had what the doctor called heart disease, with shortness of breath and sharp pains in the left side. I decided to take Hood's Sarsaparilla, and before I had finished three bottles I was in better health than I had been for years. I do not have any pain now, sleep well, and to-day no woman of my age enjoys better health."

Enjoys Better Health than I. At home on the ranch I not only attend to my family household, but last summer I cared for and milked four cows. I do not feel that I can say half enough in praise of Hood's Sarsaparilla.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

SCRIVEN'S

Patent Elastic Seam Drawers!

We want to call the attention of our patrons to a novelty which, from the favor it has been received with, we believe has come to stay and become an indispensable article of gent's furnishing.

A glance at the cut above will show at once the superiority of goods made in this manner over those heretofore in vogue.

SCRIVEN'S PATENT ELASTIC SEAM DRAWERS are provided with an improvement consisting of an ELASTIC INSERTION at the inner and outer seams, which gives elasticity in movement and comfort in fit. The drawers are cut in figure outlines and afford the wearer all the advantages of knit goods, while retaining the superior comfort of woven fabric.

The PATENT ELASTIC SEAM, which contains NO RUBBER, retains its springiness and wears longer than the other portion of the garment. It makes the drawers conform to the position of the wearer and avoids any strain, no matter what attitude the body assumes.

It will also be found that these PATENT ELASTIC SEAM DRAWERS are equally well adapted to all athletic positions and allow the greatest freedom and ease of motion. In the position assumed in the cut, not the least tension is produced on the main portion of the goods, while the elastic seams allow the transformation of the figure as seen in the position, which would be impossible in others without producing great strain on the goods and friction upon the person.

We have now a complete stock of these goods in all sizes, and can recommend those made of the material known as "JEAN" to be the coolest and best adapted to those persons who do not care to wear woolen fabrics.

They say that there is "nothing new under the sun," but the fellow who said that was all wrong. He forgot "Gent's Furnishings," they're always making something new in that line.

The latest yet, we have just received samples of, from the manufacturers. It consists of Gauze, Balbriggan, or Silk Under Garments with WOOL skillfully woven into the breast and back to protect the most vital parts of the body from cold or chill. To the many people who cannot wear all wool goods on account of the irritation sometimes felt, these goods will be a great boon, as, while they will have the advantage of wearing cotton fabric, the lungs and back will have a nice warm covering of wool. From the many sentiments of approval we have heard regarding these goods we believe them to be a good thing for our climate, and have placed our orders for a full stock, which will be on sale in about two months.

To any person desiring to see the samples which we have we will be pleased to show them.
